RESEARCH PROFILE

Environmental Policy and Conservation Researcher and final-year Erasmus Mundus Joint Master's student in Global Change Ecology and Biodiversity Management (GLOBE), currently studying at the University of Lisbon after completing study periods at Universidad Rey Juan Carlos (Spain) and Bangor University (UK). Holding a BSc in Environmental Science and several years of experience in research, programme evaluation, environmental sustainability, policy analysis, and advocacy projects with Oxfam, the RMG Sustainability Council (RSC), the Centre for Environment and Climate Change Research (CECCR), and the Society for Conservation Biology (SCB) Europe. My research interests focus on conservation impact evaluation, evidence-based conservation, conservation social science, environmental governance, human-nature interactions and conflicts, and understanding how policies, institutions, incentives, and behaviour shape biodiversity and social outcomes. I am particularly interested in applying mixed-methods and interdisciplinary social science approaches to evaluate conservation interventions and generate evidence that can inform more effective environmental decision-making. Combining experience in programme evaluation, policy analysis, scientific communication, GIS, and remote sensing, I aim to contribute to evidence-based conservation policy and practice.

EDUCATION

Erasmus Mundus Master in Global Change Ecology and Biodiversity Management (GLOBE) Sep 2025 – present
Current Grade (end of Year 1): 8.87/10.00

Erasmus Mundus scholarship (European Union) Studied at:

- University of Lisbon, Portugal (Sep 2026 – present)
- Universidad Autónoma de Tlaxcala, Mexico – Summer School (Aug – Sep 2026)
- Bangor University, Wales, United Kingdom (Jan – Jun 2026)
- Universidad Rey Juan Carlos, Madrid, Spain (Sep 2025 – Jan 2026)

BSc (Hons) Environmental Science, Jashore University of Science and Technology, Bangladesh 2018 – 2023

- *Final grade: 3.19/4.00.*
- *Best Dissertation Award for the 2017–18 session.*

PUBLICATIONS

Exploring climate justice and natural resource rights: climate adaptation through community stewardship in ecosystem services management in MPA. *Ocean & Coastal Management (manuscript under review).*

Adapting to change: Exploring reverse migration as a coping strategy among internal migrants in Bangladesh. *Heliyon (2023). DOI: 10.1016/j.heliyon.2023.e19479.*

Anthropogenic marine litter pollution along the coast of Sonadia Island: An Ecologically Critical Area (ECA) of Bangladesh. *Regional Studies in Marine Science (2024). DOI: 10.1016/j.rsma.2024.103690.*

Assessment of community stewardship over ecosystem services within climate nexus: a pathway towards locally-led adaptation in Nijhum Dwip, Bangladesh. *South Asian Climate Conference 2023 (conference presentation).*

RESEARCH AND PROFESSIONAL EXPERIENCE

Intern, Communication Team – Society for Conservation Biology (SCB) Europe Jun 2026 – present

- Contributing to the communication team's work on communicating conservation science from researchers and practitioners to all.

Remediation Programme Officer – RMG Sustainability Council (RSC), Dhaka Jun 2024 – Sep 2025

- Conducted system evaluations and analysed environmental and resource data to recommend improvements in water and energy management and resource recovery.
- Assessed treatment system performance and water quality risks to support circular economy initiatives.
- Analysed renewable energy policies in Dhaka's garment sector for the Just Energy Transition in the Industries of Bangladesh project (TARA Foundation), with recommendations for policymakers.
- Facilitated multi-stakeholder policy dialogues and capacity-building workshops with donors, industry and development organisations.

Programme Quality Officer – Oxfam, Dhaka Mar – May 2024

- Led the evaluation of 15 partnerships using manual assessment methods and piloted Oxfam's newly developed CAPAS tool, coordinating cross-functional teams.
- Supported activities on ecosystem restoration, natural resource management, disaster risk reduction and livelihood diversification.

- Development Trainee, Climate Justice and Natural Resource Rights – Oxfam, Dhaka** Oct 2023 – Feb 2024
- Collected digital evidence to assess the effectiveness of climate threshold-based agricultural risk insurance in northern Bangladesh (Climate Risk Insurance project, funded by FAO).
 - Developed research frameworks and field data collection tools and carried out GIS and remote sensing analysis for sustainable forest resource management (Climate Adaptation through Community Stewardship project).
 - Operated drones (DJI Mavic 3 Multispectral) for aerial surveying; processed data in Pix4D, DJI Terra, ArcGIS Pro and QGIS.
 - Assessed the gendered impacts of environmental policies through interviews and reports, with recommendations for international forums.
- Volunteer – Oxfam, Dhaka** Apr – Oct 2023
- Ran surveys, interviews, focus group discussions and key informant interviews using participatory approaches with communities, government and private sector actors; contributed research reports on regulations and policy.
- Research Coordinator – Centre for Environment and Climate Change Research, Dhaka** Dec 2022 – Apr 2023
- Supervised field activities, designed data collection tools and analysed data using KoboToolbox, SurveyCTO, SPSS and NVivo.
- Research Assistant and Analyst – Centre for Environment and Climate Change Research, Dhaka** Jul – Dec 2022
- Field research on the effects of climate change on the occurrence and distribution of animal diseases and mortality in smallholder farming systems in Rangpur, using quantitative and qualitative methods with a multidisciplinary team.
- Field Medical Technologist: COVID-19 rapid antigen test evaluation, Dhaka** Aug 2021 – Mar 2022
- Evaluated the diagnostic performance of SARS-CoV-2 rapid antigen tests at household level; managed and verified field data and produced analytical reports.

RESEARCH PROJECTS

- Climate Risk Insurance (FAO):** Evaluated climate-risk insurance effectiveness and climate adaptation outcomes in vulnerable farming communities close to the conservation areas.
- Just Energy Transition (TARA Foundation):** Assessed renewable energy transition policies, employment impacts and green skills development in Bangladesh's RMG sector and the policy advocacy.
- Loss and Damage (Sida):** Conducted participatory research and mapping of community responses to climate-related losses and adaptation challenges among the vulnerable areas and communities in Bangladesh.
- Ecosystem Restoration & Community Stewardship (OXFAM Hong Kong):** Applied field research, GIS, and remote sensing to support sustainable forest and ecosystem management.
- Gender and Climate Justice (OXFAM Bangladesh):** Investigated gendered impacts of environmental policies and developed evidence-based policy recommendations.

TECHNICAL SKILLS

Statistics and analysis: R, SPSS, Stata, NVivo, Python.

GIS and remote sensing: ArcGIS, QGIS, Pix4D, DJI Terra, Drone Deploy, drone surveys.

Data collection and visualization: KoboToolbox, SurveyCTO, ODK; Tableau, Power BI; Microsoft Office.

Languages: Bengali (native); English C1; Spanish A1

AWARDS AND FUNDING

Erasmus Mundus Scholarship, European Union (GLOBE master's programme)	2025
Rising Star Award, Oxfam in Bangladesh	2024
Climate Change Ambassador Award, YounGO	
Best Dissertation Award, Jashore University of Science and Technology	2023
Research Scholarship, Bangladesh Poribeshbid Society	2022
Runner-up, inter-university poster competition (Environmental Innovative Solution); Dr M. N. Khan Scholarship	2021

TRAINING

GIZ Training of Trainers on Human Rights and Environmental Due Diligence, Dhaka	Nov 2024
Young Negotiator Programme: Climate Diplomacy Capacity Building Workshop, Dhaka	Oct 2024
NASA ARSET: Earth Observations for Humanitarian Applications (online)	Jun 2024
ICCCAD workshop on youth and children's roles in addressing loss and damage, Dhaka	May 2024

REFeree

Dr Gopal Chandra Ghosh, BSc Thesis Supervisor, Jashore University of Science and Technology (gopal@just.edu.bd).

Further documentation referees available on request.
